<ul style="list-style-type: none">- yes- Philosophy is really interesting subject. Mr. Waterman does a really good job explaining the subject. I like how every class I know what he is talking about because he puts lots of effort into making students understand even if its hard to answer his question, he tries his best to provide as much as information to persuade the topic.- Excellent teacher, who obviously loves what he teaches. He explains difficult issues very objectively, always invites student feedback, and takes time in class to make sure everyone understands the topic before moving further. Is also great in that he uses current examples and ideas to help explain hard concepts. I loved this class, and walk away having learned so much.- Yes, the very organized structure of the class was extremely helpful.- Overall, yes. Professor Waterman was a good professor. He could change up his teaching lessons though cause he uses the same methods every class and it can get really dragging and hard to pay attention to the material sometimes.- Yes, definitely.- Yes, great course and great professor.- awesome teacher. he's really passionate about philosophy and it shows in his teaching. he's very helpful if someone does not understand and doesn't move on until everyone understands.- Yes. This course was a very in depth and interesting. This course was taught and presented in a very successful manner.- The class is difficult but Prof. Waterman does his best to make sure you'll understand.- Interesting class, hard to follow at times, but great professor- this teacher knows a LOT about philosophy and he made every class interesting, the only kind of bad thing i have to say is that i wish there were more assignments so the few that we had werent weighted so heavily

He is very passionate about the subject he is teaching. The only down fall was that we had only 3 grade put in, beside the final. Two papers and a mid-term</p> <p>- yes</p> <p>- I believe. I've certainly gained and put into use a lot of the classes teachings more than any other class but I am uncertain what the actual intended outcomes are.</p> <p>- You have really opened my eyes to an entirely new school of thought and I'm very glad I got to take your course.</p> <p>- Yes.</p> <p>- Yes</p>
